

**EVERY LOG  
HAS A STORY  
TO TELL.**

**THE  
LOG  
SCALER™**

**LOG SCALING, MADE EASY.  
FASTER AND MORE  
EFFICIENT THAN  
EVER BEFORE!**

Scale incoming Vendor Loads faster than ever with the industry standard Log Scaler.

Enter the length and diameter of a log with ease.

Fulfill log shipments and sales with the Log Scaler™ Program.

## PROGRAM OVERVIEW

**Scale a Load:** Receive Vendor or Tract-Based Loads, recording Class, Species, Grade, and Pricing for scaled logs.

**Cutbacks:** Make length edits to scaled logs on the fly.

**Custom Pricing:** Enter your custom pricing, retaining multiple lists for every species and grade combination.

**Vendor Lists:** Enter Vendors and store them for incoming loads.

**Create a Sale:** Create a log sale and add logs to it in real time. This sale can be downloaded to the Yardmaster System to complete.

**Consume Logs:** Add logs to a consume process as they're run through your sawmill and remove them from inventory.

**Transfer Logs:** Move logs from from Yard to another.

**Inventory Reconciliation:** Scan your available inventory of logs and get an accurate report comparing results to your recorded inventory. This information can be used to reconcile any issues.

## THE COMPLETE SOLUTION

The **Log Scaler** is a must-have for any log operation, and is the ideal tool for handling all of your log yard activities. This comprehensive program is built upon nearly 40 years of experience and refinements - scaling loads, transferring logs, and building sales has never been easier, giving you complete control when building your log inventory.

The **Log Scaler** can download all load information to the **Yardmaster 2020 Log System**, via a wireless network. The wireless **Log Scaler** is the fastest and most efficient method to update your inventory, sales, and inventory consumptions in real time. It transmits your information to the host **Yardmaster 2020 Log System**, and allows real-time updates to inventory levels for all users to view. The **Log Scaler** allows for the most efficient and accurate inventory possible for your operation.
