

**THE YARDMASTER
LOG SYSTEM,
BY FORESTRY SYSTEMS.
WE GO WHEREVER YOU GO.**

Sales@ForestrySystems.com • (800) 868-2559 • www.ForestrySystems.com

Save time and money with the most detailed, easy-to-use inventory solution in the industry.

Compatible with any device that has a web browser and internet connection.

Our cloud-based system allows you to access your inventory - any time, anywhere.

PROGRAM OVERVIEW

Inventory Request: Search your active, sold, or consumed inventory by species, grade, dates, vendors, tracts, and more with our powerful inventory request routine.

Jobs: Manage your active Tracts by tracking incoming Loads, Sales, Vendors, Owner, Settlements, and Cruise. Our Tract analysis reports provide detailed profit/loss information for all Tract activity.

Settlements: Settle loads and pay your vendors in seconds using your own customizable pricing lists. Keep detailed payment records with our Settlement Statement and Payment History reports.

Sales: Enter detailed log sales to update your active and sold inventory, invoicing your customer with custom sales price routines unique to them. This routine also contains thorough profit/loss analysis reports.

System Setup: Customize the Yardmaster to best fit your company's specifications by entering your own custom Species, Grade, Customer, and Vendor IDs, as well as add and control user access.

Reports: Over a hundred available reports, based on your specific queries and information needs. Reports can also be customized and tailored for your company's use.

LOG PROCESS FLOW

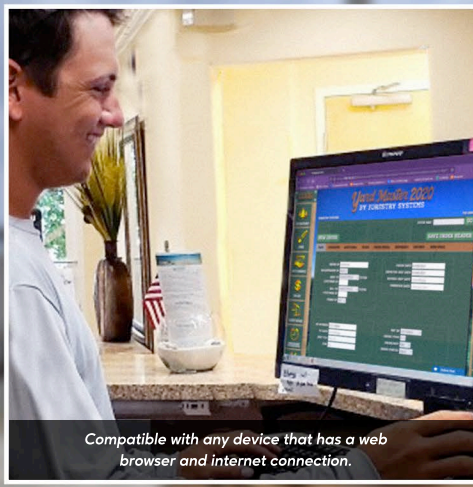

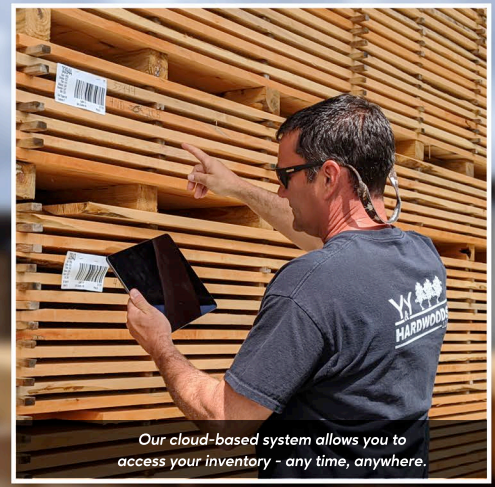

**THE YARDMASTER
LUMBER SYSTEM,
BY FORESTRY SYSTEMS.
WE GO WHEREVER YOU GO.**

***Yard 2020
Master***
BY FORESTRY SYSTEMS

Sales@ForestrySystems.com • (800) 868-2559 • www.ForestrySystems.com

Compatible with any device that has a web browser and internet connection.

Our cloud-based system allows you to access your inventory - any time, anywhere.

PROGRAM OVERVIEW

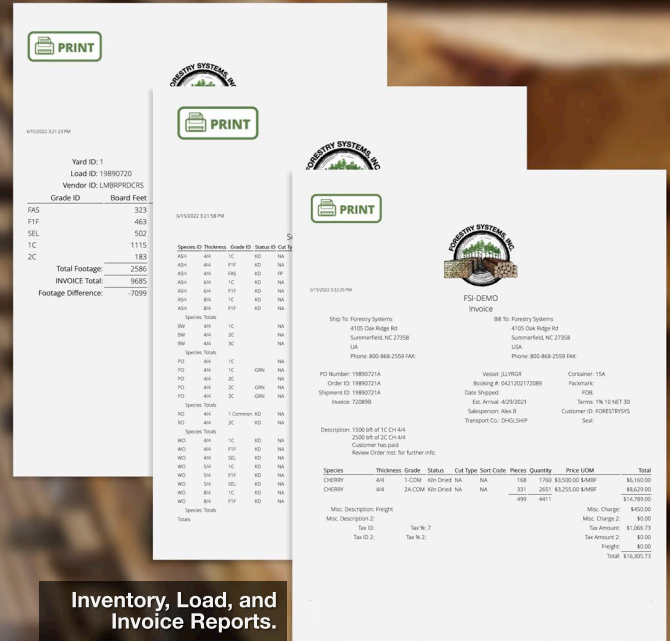

Inventory Request: Search your active or sold, inventory by species, grade, dates, vendors, status, and more with our powerful inventory request routine.

Production: Track your active processes by viewing and loading Kilns, Predryers, Airdryers, and more. Destack kiln dried bundles while retaining their unique cost information using our innovative Piledown Reconciliation routine.

Receiving: Start tracking your inventory from the moment you receive a vendor load (or your own mill's green lumber). Compare your Yard's tally of the arrived load to the Vendor's for accurate inventory evaluation.

Orders & Shipments: Detail customer orders and shipments. Quickly enter orders and search inventory to evaluate a delivery schedule. Both the Order and Shipment screens contain comprehensive data entry fields, and are interconnected to allow fast access to Yards, Orders, Shipments and Bundle Selections.

System Setup: Customize the Yardmaster to best fit your company's specifications by entering your own custom Species, Grade, Customer, and Vendor IDs, as well as add and control user access.

Inventory, Load, and Invoice Reports.

SAVE TIME AND MONEY

The Yardmaster is the total business solution for any lumber operation. Your inventory information needs don't stop at the yard - Yardmaster provides operations with full production, inventory, sales management and cost tracking. No other inventory software can save you time and money from day one like the Yardmaster.

The Yardmaster fits the specific needs of any modern lumber operation. Through cloud technology, you can track, sell, and manage your lumber inventory with ease - any time, anywhere, on any device. Changes made to your inventory happen in real time, giving you the most up to date snapshot of your operation whenever you request it. No inventory-tracking software in the industry is as refined, accessible, and easy-to-use as the Yardmaster Lumber System.
